EDITION 01 / REGULAR 1.540

Rasoir

Hairline & Stem

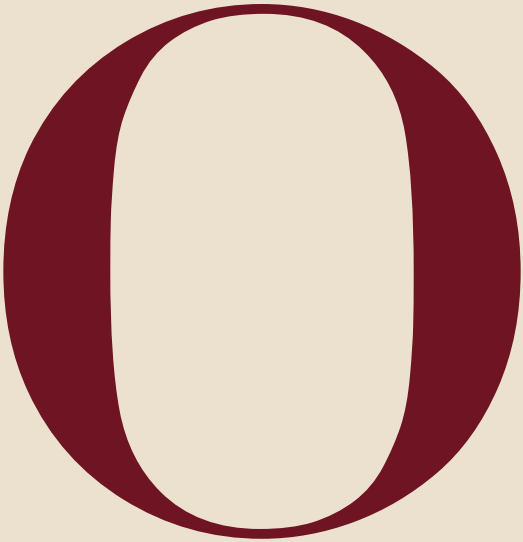

Thick against thin.

Capital stems are 112 units wide and lowercase stems 98, on a 1000-unit em. The hairlines run about 8 units: the bar of this H is thinner than one point at 100 pt. Stress is vertical, serifs are flat and unbracketed.

Didone, cut finer.

One oval, every bowl.

o b d p q n h m u a g

The rounds of the lowercase are cut from the same oval as o; b d p q are an o with a stem added. The inside edge of every bowl stays convex, so no bump interrupts a counter. x-height 470, cap height 700.

Cut clean.

Every stroke end thins before the cut, then finishes in a flush vertical spur.

c e s r a f j t g

C G S J 2 3 5 6 9 ? &

These glyphs end in the same tapering spur as the capital C and S.
Ball dots stay round, on i, j and the punctuation.

Jest, grace, scissors.
